

HDS 1000 BE/DE Cage

Hot Water High-Pressure Cleaners with internal combustion engine.

The HDS 1000 BE/DE Cage are mobile hot water high-pressure cleaners built in a sturdy tubular frame offering all-round protection for components. Ideal for cleaning applications where there is no power supply available. Available in petrol (BE) and diesel (DE) versions, these units offer large water flow and pressure rates ideal for applications where high performance cleaning is required. These units are best suited for the plant hire and construction industry, agriculture as well as the public sector.

- Convenient start mechanism means electric starter has the engine running in seconds (additional pull start available).
- The engine shuts down automatically if oil levels drop below the minimum level eliminating the risk of the engine running dry.
- Built on sturdy tubular frame with cage attachment.
- Clearly laid out control panel with self explanatory symbols.
- EASY press trigger gun with soft grip inlay for fatigue free operation.
- Optional wheel kit available making these units even easier to manoeuvre (Order No. 2.637-820).
